

# TRANSMITTER BATTERY REPLACEMENT

730E7-01

## 1. REMOVE TRANSMITTER BATTERY

### NOTICE:

Special caution should be taken for handling each component as they are precision electronic components.

(a) Using a screwdriver, pry out the transmitter case.

### NOTICE:

**Do not forcibly pry out the case.**

(b) Remove the battery (lithium battery).

### NOTICE:

- Do not push the terminals with your finger.
- Prying up the batteries (lithium battery) to forcibly remove it, will cause deformation of the terminals.
- Do not touch the battery with wet hands. Water may cause unexpected rust.
- Do not touch or move any components inside the transmitter, or it may interfere with the proper operation.

## 2. INSTALL TRANSMITTER BATTERY

(a) Install a new battery (lithium battery) with the positive (+) side up, as shown in the illustration.

### NOTICE:

- Be sure that the positive side and the negative side of the transmitter battery is faced correctly.
- Be careful not to bend the electrode of the transmitter battery insertion.
- Be careful that no dust or oil will adhere to the transmitter case.

(b) Install the case.
