

BACK DOOR CLOSER SYSTEM

730EJ-01

ON-VEHICLE INSPECTION

1. INSPECT BASIC OPERATION

- (a) When the back door is partially closed, check that the motor operates so that the back door is fully closed (locked).
- (b) After the above step, check that the back door can be opened.
- (c) When the back door is partially closed and then the motor starts normal operation, push the back door opener switch and pull up the back door to open it. At this time, check that the motor starts reverse operation and then stops.
- (d) Immediately after the back door is partially closed (the motor has not started operation yet), push the back door opener switch to open the back door. Check that the motor does not operate at this time.
